( [Amethyst countertop](#) )

Amethyst is a variety of quartz, with a hardness of 7, a specific gravity of 2.65, a refractive index of 1.54-1.55, and is dichroic. It is a silicate mineral, and is found in a variety of colors, including purple, pink, and red. Amethyst is a popular gemstone, and is used in jewelry and as a decorative material. Amethyst is found in a variety of locations, including Brazil, Madagascar, and the United States. (Backlit)
