

Arc de Triomphe Purple Crystal Amethyst [Console Table](#)

Design Statement

The design inspiration for the Triumphal Arch Entrance Table comes from the famous Arc de Triomphe. The two supporting columns of the console table feature arched designs, echoing the classic arch structure of the Arc de Triomphe. This not only adds a sense of visual depth but also symbolizes strength and stability, endowing the table with a dignified and elegant character.

Product Story

Standing beneath the Arc de Triomphe in Paris, I was struck by the grandeur and solemnity of this magnificent structure. The Arc de Triomphe symbolizes not only victory and glory but also strength and stability. This inspiration led me to design a piece of home decor that could capture this spirit—the Arc de Triomphe Console.

I chose amethyst as the primary material, as it symbolizes spiritual enlightenment and wisdom, bringing inner peace and tranquility while reducing stress and anxiety. The deep hues of amethyst perfectly complement the solemnity of the Arc de Triomphe, endowing the console with unique artistic value and spiritual significance.
