

Backlit Green Emerald Double Sink Vanity Countertop

The green emerald backlit [double sink countertop](#) is a high-end home decoration choice that combines artistic beauty and practical functions. The use of semi-precious stone [green emerald slab](#) and light-transmitting design technology not only show the brilliant colors and textures of natural gemstones, but also create a warm and luxurious space atmosphere through lighting embellishments.

Features

1.natural aesthetics

Green ruby emerald is a naturally occurring semi-precious stone whose unique color combinations and natural texture add unique artistic value to each piece. The ruby-green emerald material of the sink becomes even more dazzling when light passes through, like a naturally carved work of art.

2.Translucent process

Through high-quality light-transmitting design, the green emerald double sink countertop shows a crystal clear texture under the light, adding a dreamy visual effect to the bathroom or restroom. It is especially suitable for high-end hotels,

private villas, luxury clubs and other places.

3.Rugged and durable

The semi-precious stone material has excellent hardness and pressure resistance, is waterproof and anti-corrosion, and is easy to clean and maintain, ensuring that it remains bright and new in daily use.

4.Multifunctional use

In addition to sink countertop, red green emerald translucent stone can also be used to make countertops, background walls, bars, etc., providing more creative possibilities for the overall space design.
