

Backlit **[solid blue agate slab](#)** is a high-end semi-precious stone decorative material that combines beauty, practicality and luxury. Its unique natural texture and deep blue tone are as mysterious and elegant as the ocean, making it an ideal choice for many high-end design projects. Solid blue agate slab has excellent light transmittance. When combined with backlighting effects, it can show charming changes in light and shadow, creating a transparent and three-dimensional visual effect.

Each blue agate slab is made of natural agate stones, with ever-changing textures, giving the space a unique artistic atmosphere. As a solid material, blue agate slab not only has excellent compression and wear resistance, but also has good corrosion resistance and high temperature resistance, and is suitable for a variety of scenarios.

Whether blue agate slab are used for walls, floors, bars, countertop, background walls, coffee tables and other furniture designs, solid and translucent blue agate slab can create a luxurious and atmospheric visual effect and enhance the style of the space.
