

Backlit green agate kitchen island counter

The backlit green agate island counter is a unique translucent [semi-precious stone kitchen island](#) that is very popular in home decoration.

Green agate stone has good light transmission properties and will show charming light and shadow effects under light. Especially under backlighting, the bar surface will emit a soft and mysterious light, making the entire space full of vitality and agility.

Each piece of green agate has a unique natural texture. These natural patterns and color changes give the bar an irreplaceable natural beauty, making each bar a unique work of art.

In addition to its beauty, translucent green agate is also durable and easy to clean, making it ideal for use as a bar surface. Its hardness and stain-resistant properties ensure its practicality in everyday use.

Translucent green agate bar counters are often used in high-end restaurants, hotel lobbies, private villas and high-end commercial spaces. These environments require high-quality decorative materials to enhance the overall beauty and taste. The application of translucent green agate bar counters has also been extended to bars, coffee shops, nightclubs and other places, adding an elegant atmosphere to these leisure and entertainment spaces.
