

Natural [yellow crystal](#) has been known as the "stone of wealth and warmth" since ancient times. Its warm golden color is like the embrace of the sun, emitting a soft and powerful glow. We select high-quality natural yellow crystal rough stones, and after precise cutting and hand-polishing, we turn them into round translucent center tables.

When light shines through the crystal, the delicate texture and natural color interweave to create a layered effect of light and shadow, as if the morning light is quietly blooming in the room. It is not only a piece of furniture, but also a work of art that can inject warmth, balance and richness into the space.

The circular design symbolizes perfection and harmony, while the cylindrical shape is both stable and durable while perfectly showcasing the transparent beauty of crystal. Whether placed in a living room, reception area, or private collection, it will become a centerpiece that attracts attention.

Features:

Natural raw stone: carefully selected high-quality yellow crystal, pure color and excellent light transmittance.

Hand polished: Each piece is polished through multiple processes, and the surface is as smooth as a mirror.

Light and shadow art: The light-transmitting effect makes the internal texture of citrine present a unique charm under the light.

High-end customization: size, base material and lighting design can be customized according to needs.

Suitable for:

Luxury living rooms, boutique clubs, hotel lobbies, private collection spaces, art exhibitions, etc.
