

Large Polishing [Purple Semiprecious Gemstone Slab](#)

Using purple fluorite stone in your home is an easy way to make the ambiance more natural looking. purple fluorite stone slabs can be used for countertops, bar tops, bathroom vanity, backsplashes and other interior decoration ideas. The semi-precious stone has appreciable resistance against moisture, staining and chemical cleaning agents. Some purple fluorite might have a few mustard yellow streaks. These hues and patterns are different in every fluorite slab - chances of finding two exact replicas is negligible - making your fluorite gemstone slab truly exclusive! You might want to try backlit purple fluorite in your living room. The visual effect is mesmerizing because of the stone's natural translucence.
