

Red Green Emerald Khata Console Table

Design Statement

The design inspiration for the Hada [Console Table](#) comes from the Hada, a symbol of purity, respect, and blessings. The overall shape mimics the form of the Hada, with flowing lines and elegant curves conveying softness and harmony. The design of the table edges and supporting columns reflects the Hada's airy feel, as if a Hada is lightly suspended in space.

Product Story

During a trip to Tibet, I was deeply moved by the purity, respect, and blessings symbolized by the khata. This inspiration led me to design the Khata Console, integrating these cultural and emotional elements into home design.

I chose ruby and emerald as the primary materials. Ruby, like a blazing flame, symbolizes love and vitality; emerald, like the gentle embrace of the earth, brings inner peace and harmony. The natural colors and textures of ruby and emerald make each console unique, full of artistic value.
