The pink agate slab is a kind of luxurious and romantic gemstone decoration slab. The whole pink agate slab is selected by experienced stone craftsmen with full color and clear lines, and then design and layout according to the pattern. , And then spliced together piece by piece. Each piece of pure natural semi-precious stone slabs is assembled by hand by experienced craftsmen with fine layout, which can even show the luxury of semi-precious stones.

The agate semi-precious stone itself looks very luxurious, much higher than marble, coupled with innovative designs, such as the addition of lighting, waterjet mosaics, and various splicing designs, adding another layer to the original

luxurious semi-precious agate slab Gorgeous.
